

GLOBAL TECHNOLOGY PARTNERS

Global Technology Partners (GTP) is a supplier of high innovative technology machinery and equipment designed to increase international competitiveness of Peruvian companies.

Our presence in the market through expertise and extensive network in Government and industry allows us to provide mentoring and adequate branding and representation of overseas partners and manufacturers.

Vision

To contribute with the Peruvian Government efforts to achieve higher international standards of competitiveness for the mining sector.

Mission

GTP aims to provide high technology solutions, machinery, equipment and specialized services to the Peruvian mining sector, allowing an increase in both domestic and international competitiveness.
